<b>Office Action Summary</b>	Application No. 10/710,273	Applicant(s) DORIS ET AL.	
	Examiner Fazli Erdem	Art Unit 2826	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-13 allowed.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 14-18 rejected under 35 U.S.C. 102(e) as being anticipated by Hanafi et al.

(6,841,831)

The applied reference has a common assignee with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C.

102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention “by another,” or by an appropriate showing under 37 CFR 1.131.

Regarding Claim 14, Hanafi et al. disclose a fully-depleted MOSFETs with low source and drain resistance and minimal overlap capacitance using recessed channel damascene gate process where in Fig. 13, it is disclosed a MOSFET device comprising a silicon on insulator substrate 10 having a SOI layer 14 in which a middle first portion 30 has a thickness of between 10-20 nm (as disclosed in claim 8), a gate 38 including a gate dielectric 36 and gate electrode 38

Art Unit: 2826

on top of the first portion of the SOI layer labeled as 30 having a thickness between 10-20 nm, source and drain diffusion regions are located to the left and right of the middle portion 30 where the side portions to the left and right of the middle portion are thicker than the middle portion

Regarding Claim 15, elements 34 are the spacers about the gate.

Regarding Claim 16, gate conductor comprises doped polysilicon

Regarding Claims 17 and 18, portion 30 is the channel beneath gate conductor 38 and it could be doped or undoped.

### *Conclusion*

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Fazli Erdem whose telephone number is (571) 272-1914. The examiner can normally be reached on M - F 8:00 - 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nathan Flynn can be reached on (571) 272-1915. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
